inspirational innovators

# Safety Signs

## - keeping your workplace safe

Signs play a vital part in our everyday lives and provide valuable instructional messages keeping your employees and visitors safe and protected. In fact, the Health and Safety (Safety Signs and Signals) Regulations 1996 requires that appropriate safety or warning signs must be provided and maintained at your work premises:

*"Every business is required to carry out a risk assessment of their premises and that they display the relevant signs in compliance with these findings."*

It is paramount that your signage is appropriate, up-to-date and in good condition to control safety risks. We are proud to work in partnership with Stewart Superior who have been manufacturing high quality Health and Safety signs for over 20 years and supply over half a million signs annually.

## SIGN COLOURS AND SHAPES

### MANDATORY

- Colour: blue circular symbol and background with white text
- Meaning: must carry out or comply with action displayed

### PROHIBITION

- Colour: red circular symbol with diagonal line
- Meaning: must stop, must not do prohibited activity

### SAFE CONDITION

- Colour: solid green square or rectangle with white symbols and text
- Meaning: where to go in an emergency or route to follow

### WARNING/HAZARD

- Colour: yellow triangle with black border, images and text
- Meaning: caution, risk or danger

### FIRE

- Colour: solid red square or rectangle with white symbols and text
- Meaning: location of fire safety equipment

# Signs Selection

## - from the experts

We take safety in the workplace very seriously and throughout this catalogue you will find a comprehensive range of Health and Safety signs to help you meet your legal obligations and employer responsibilities of displaying the correct signage.

Our specialist team of signs experts keep up-to-date with the signage regulations and legislations to ensure we always have the latest choice of signs to ensure your workplace is safe, secure and complies.

Our signs are manufactured in the UK to the highest quality and are easy to install. They comply to the current British and European legislation as well as the latest BS EN ISO1070 guidelines to offer you peace of mind.

Our signs come in a wide range of materials, fixings and sizes and in addition you can also create your own bespoke signage with messages and imagery personalised to your business. Please give us a call if you want to find out more or need help selecting the relevant signage for your workplace.

## SIGNS MATERIALS GUIDE

### Self Adhesive Vinyl (SAV)

Flexible, peel and stick material that is versatile and will stick to any clean surface. Mainly for interior use but can be used externally.

### Semi Rigid Plastic (SRP)

Comes with a peel and stick backing for easy fixing, can be drilled and screwed (recommended for external application). Can be used internally or externally.

### Fluted Board (CX)

A cost effective solution for short term use. Can be used internally or externally (about 12 months externally).

### 3mm Foam PVC (FB)

A versatile material that can be drilled and screwed or fixed with grip fill adhesive. Mainly for external use but can be used internally.

### Brushed Aluminium Acrylic (BAC)

Reverse printed 2mm clear acrylic for a longer life, will not fade and the image is protected. Attractive brushed aluminium effect with peel and stick backing.

### 1.5mm Satin Anodised Aluminium (SAA)

Anodised aluminium will not tarnish so perfect for many applications, screw fixing (not included).

### 1.2mm Brushed Stainless Steel (SS)

Similar to satin anodised aluminium, looks great on any door. Peel and stick application.

### Photoluminescent Semi Rigid Plastic (PSRP)

Glow in the dark plastic with peel and stick backing or can be drilled and screwed.

### Photoluminescent Self Adhesive Vinyl (PLV)

Flexible glow in the dark material that will stick to any clean surface, mainly for interior use.

### 1.5mm Brushed Aluminium Composite (BA)

Brushed aluminium/plastic sandwich for internal use only. Offers a more attractive finish than plastic.

### 5mm Clear Acrylic (CAC)

Printed on the reverse, supplied with stand-off fixings that produces an attractive shadow effect on the surface behind.

### Photoluminescent Acrylic (PAC)

The ultimate glow in the dark office safety sign, reverse printed with a peel and stick backing that can be drilled and screwed.

### 2mm Prestige Acrylic (AC)

Reverse printed 2mm clear acrylic for a longer life, will not fade and the image is protected. Peel and stick backing.

### 3mm Aluminium Composite (TAC)

Aluminium composite (no scrap value) that offers a strong and durable alternative for traffic signs.

# Build your own

## - create your own Health and Safety signage

Every business is unique and not every standard sign will meet your exact needs so you may need to design a sign that is customised with your own message, text, logo or image. Using our standard templates, you can add text and images and choose from a wide range of styles, sizes, colours and materials that suit your own personal requirements.

MANDATORY

FIRE

SAFE CONDITION

PROHIBITION

WARNING/CAUTION

INTERNAL

## BUILD YOUR VERY OWN SIGNAGE!

All the signs featured in this catalogue can be personalised with your own message, logo or image. You can use any of the signs below as a template and add your own content and imagery to make sure you clearly convey your message.

*Mandatory*

*Fire*

**Any colour**

**Any size**

**Any material**

*Safe Condition*

*Prohibition*

### HOW TO ORDER

Choose the sign symbol (if required) or decide on your image and sign colour. Add your exclusive text of up to 30 words. Select the size and material.

**== FAST ==  
DELIVERY**

*Warning/Caution*

*Internal*

**Here to help...**

If you are unsure which is the best material, size or message to use for your perfect sign, please give us a call.

If you can't find what you are looking for, please give us a call as we have over 3,000 different signs available.

# Bespoke signs

- designed to your very own specifications

We can also create bespoke signs that are completely customised to your your chosen design. So if you need signs with multiple languages, a selection of images together or a personalised message, we can produce your perfect professional sign in a choice of high quality materials. It is simple and quick to do so please give us a call to find out more.

BESPOKE INTERNAL

## HOW TO ORDER

### It's so simple!

Please contact us to discuss your bespoke sign. We will advise you on the best materials, finishes and sizes to maximise the effect. You can choose anything from text, graphics and photography for truly personalised signage.

We will then ask you to send us high resolution imagery to ensure we produce the best quality signs for you or to provide your text in a document to allow us to accurately copy it.

Delivery times are normally up to a week for custom made signage and there are no minimum quantities.

#### Here to help...

If you are unsure which is the best material, size or message to use for your perfect sign, please give us a call.

# Mandatory

## - signs that must be displayed

Protecting and informing your employees and visitors should be a top priority for all businesses but it is not always clear which signs are required by law. Mandatory signs are a legal requirement to instruct, inform and advise of an action that must be carried out to secure a safer working environment. Mandatory signs are a blue symbol and background with white text.

M218SRP-200X300 M218SAV-200X300

## HOW TO ORDER

Choose your sign and size (sizes are shown at the end of the alphanumeric ordering code - for example 150x200). Mandatory signs are available in either 1mm semi rigid plastic (SRP) or 1mm self adhesive vinyl (SAV) material.

## CHOOSING THE RIGHT SIZE:

100 x 100mm can be seen from 4.5 metres  
200 x 300mm can be seen from 7.7 metres  
400 x 300mm can be seen from 15.5 metres  
650 x 450mm can be seen from 23.0 metres

# Safe Procedures

## - be prepared for a fire or emergency

Emergencies and accidents do unfortunately happen so every business needs to be prepared in case of a fire, flood, gas leak or chemical spill. You have a responsibility to clearly show a means of escape plan in every part of your premises so that employees and visitors can evacuate quickly and safely.

## HOW TO ORDER

Choose your sign and size (sizes are shown at the end of the alphanumeric ordering code - for example 200x100). Safe Procedure signs are available in either 1mm semi rigid plastic (SRP) or 1mm self adhesive vinyl (SAV) material.

## CHOOSING THE RIGHT SIZE:

100 x 100mm can be seen from 4.5 metres  
200 x 300mm can be seen from 7.7 metres  
400 x 300mm can be seen from 15.5 metres  
650 x 450mm can be seen from 23.0 metres

# Photoluminescent - glow in the dark signs

In emergency situations, it is critical that employees and visitors can be evacuated via the quickest route possible. Photoluminescent signs illuminate the escape route in the event of power failure or light sources being obscured by smoke. Our photoluminescent signs stay illuminated for over 6 hours and comply to British Standards.

# FIRE EQUIPMENT

## - providing vital guidance

In the event of a fire, it is essential that employees and visitors know where to locate fire fighting equipment. Safety signs should be easily identifiable as they could be the difference in a life or death situation.

## HOW TO ORDER

Choose your sign and size (sizes are shown at the end of the alphanumeric ordering code - for example 100x200). Fire Equipment signs are available in either 1mm semi rigid plastic (SRP) or 1mm self adhesive vinyl (SAV) material.

## CHOOSING THE RIGHT SIZE:

100 x 100mm can be seen from 4.5 metres  
200 x 300mm can be seen from 7.7 metres  
400 x 300mm can be seen from 15.5 metres  
650 x 450mm can be seen from 23.0 metres

Signs are available in 1mm semi rigid plastic (SRP) or self adhesive vinyl (SAV).

# First Aid

## - make sure you are prepared

If someone is injured in an accident, an immediate response is required so it is essential that your premises clearly show where the first aid supplies are located and where the nearest first aider is. You have a duty of care to show the correct first aid signage to make sure you are caring for staff, visitors or members of the public.

Signs are available in 1mm semi rigid plastic (SRP) or self adhesive vinyl (SAV).

# Prohibition Signs

## - for when actions or behaviours are not permitted

In order to keep staff, visitors and members of the public safe, we need to let them know when certain actions are forbidden. The primary use for prohibition signs is to clearly inform people of the actions that are prohibited, promoting health and safety in the workplace. Prohibition signs are denoted by a red circular symbol with a diagonal red line.

NO ENTRY

NO PARKING

### SMOKE-FREE PUBLIC AND WORKPLACES

What you should know:

#### The Law

Smoking is no longer permitted in enclosed public places and workplaces. There are penalties for smoking in such places, and for not displaying no smoking signs. Proprietors allowing others to smoke will face legal proceedings.

#### Why

Second hand smoke kills and causes lung cancer, heart disease and respiratory illnesses in adults and a variety of conditions in children.

There is no safe level of exposure to second hand smoke, so ventilation is not a solution.

#### If someone breaks the law

1. Draw their attention to the 'No Smoking' signs.
2. Advise them that smoking is prohibited by law and politely ask them to stop smoking.
3. Advise them of any place where smoking is permitted, such as outer gardens or shelters.
4. Refuse service to anyone who continues to smoke and ask them to leave.
5. If a customer refuses to leave, follow usual procedures for dealing with anti-social behaviour.
6. If threatened, seek the assistance of the police. Do not put yourself in any danger.

**SMOKING IN THESE PREMISES IS AGAINST THE LAW.**

\*Premises which have a roof and walls on more than 50% of its perimeter

# Warning - caution or danger ahead

Sometime it isn't always obvious when a danger or hazard is ahead of us. Caution and danger signs warn people of a potential risk to keep them safe both internally and externally. Warning and hazard signs are denoted by a yellow triangular symbol with a black border, text and images.

## CAUTION SIGNS

## DANGER SIGNS

Signs are available in 1mm semi rigid plastic (SRP) or self adhesive vinyl (SAV)

## HOW TO ORDER

Choose your sign and size (sizes are shown at the end of the alphanumeric ordering code - for example 150x200). Warning/Hazard signs are available in either 1mm semi rigid plastic (SRP) or 1mm self adhesive vinyl (SAV) material.

## CHOOSING THE RIGHT SIZE:

100 x 100mm can be seen from 4.5 metres  
200 x 300mm can be seen from 7.7 metres  
400 x 300mm can be seen from 15.5 metres  
650 x 450mm can be seen from 23.0 metres

# Warehouse

## - protect your employees

Warehouses are busy places and with so much going on in loading docks, shipping, racking, aisles and forklift trucks, clear signage is a must to keep your employees safe and to comply with Health and Safety regulations.

# High Traffic Floor Paint

**NEW!**

Blackfriar Professional High Traffic Floor Paint provides an exceptionally hard wearing finish for surfaces such as brickwork, concrete, metal and stone.

Protect floors with this exceptionally hard-wearing, high performance, easy to clean two pack floor solvent based polyurethane coating giving excellent resistance to solvents, grease, oil and solutions of acid and alkali. Ideal for commercial and industrial indoor and outdoor use.

Can be applied with a brush or roller with minimum disruption due to rapid drying time - vehicular traffic can use after just 3 days. 8 hours drying time at 20° and recoatable in 8-48 hours.

**HIGH TRAFFIC FLOOR PAINT**  
White 5 litres, supplied with 1 litre Activator  
Covers 12m<sup>2</sup>. Grey, semi gloss finish.

**ORDER CODE BF217**

Always read the instructions before use.

# Construction

## - prevent serious injuries

Building sites are fraught with potential risks and hazards so it is imperative that you provide clear visual warnings to employees, visitors and the general public. Failing to display the necessary Health and Safety signs could lead to serious injuries or loss of life so it is crucial that the following signs are displayed throughout your site.

WARNING & CAUTION SIGNS

DANGER SIGNS

SITE SAFETY

PROHIBITION SIGNS

FIRE AND FIRST AID SIGNS

Signs available in 4mm fluted board (CX) or 3mm PVC (FB)

# Road Safety

## - traffic management

Traffic signs play a vital role in directing, informing and controlling driver's behaviour in an effort to make the roads as safe as possible for everyone. Road signage is a universal way of guiding us on roads, motorways, car parks, crossings and through road works so make sure you display the most up-to-date signs.

**NEW!**

# STENCILS

Industrial quality, reusable stencils that are ideal for use on roads, car parks, pavements, warehouses, loading bays and playgrounds.

- High quality, heavy-duty PVC stencils
- Easy to use with paint and brush or an aerosol paint spray
- Wet paint can be wiped off with paint cleaners so the stencils can be reused

#### ROAD MARKING STENCILS

STEN-VISIT	Visitor
STEN-DISAB	Disabled
STEN-NOPARK	No Parking
STEN-RESERV	Reserved
STEN-ARROW	Arrow
STEN-STOP	Stop
STEN-EXIT	Exit
STEN-AZ	Letters A-Z
STEN-09	Numbers 0-9

# Line-Marking Paint

**NEW!**

A quick drying, long-lasting marking paint from Blackfriar for bare concrete, asphalt and painted floors. Ideal for roads, car parks, factories, schools and public areas.

Line marking paint offers a durable finish with excellent resistance to abrasion and harsh cleaning products.

Line marking aerosols provide rapid one coat coverage with easy upside down spray action. Non-clogging nozzle.

#### HOW TO ORDER

Choose your floor sign and message.  
 Floor standing hazard signs are made from durable moulded yellow plastic for a long lasting solution.

#### CHOOSING THE RIGHT SIZE:

100 x 100mm can be seen from 4.5 metres  
 200 x 300mm can be seen from 7.7 metres  
 400 x 300mm can be seen from 15.5 metres  
 650 x 450mm can be seen from 23.0 metres

Floor signs are made from durable yellow moulded plastic.

# Office

## - keeping staff and visitors safe

Offices should be welcoming and productive environments but safety should be your number one priority. You have a responsibility and obligation to display Health and Safety signage as well as directional signs to make sure that in the unfortunate event of a fire or accident no one is at risk. Our range of office signs have been designed to complement all decors.

#### HOW TO ORDER

Choose your sign and message.  
Education signs are available in a 2mm brushed aluminium effect material and have a peel and stick backing.

#### WITH EDUCATION IN MIND

Education signs are reversed printed so can be seen from both sides of the door and are easy to clean and non-scratch making them perfect for education environments.

Signs are available in 2mm brushed aluminium effect acrylic material.

# Health and Safety Posters

As an employer, you are required by law to inform your employees of Health and Safety Laws.

The Health and Safety Law poster (HS001) ensures you comply with the current legislation. A new poster came into affect in April 2014 so make sure you have the latest version to ensure you are complying.

## H&S AWARENESS

### Health and Safety Law What you need to know

All workers have a right to work in places where risks to their health and safety are properly controlled. Health and safety is about stopping anything from or with us that could harm us. Your employer is responsible for health and safety, but you must help.

**What employers must do for you**

1. Assess the risks to your health and safety.
2. Control the risks to your health and safety.
3. Inform you of the risks to your health and safety.
4. Train you on the risks to your health and safety.
5. Consult you on the risks to your health and safety.

**What you must do**

1. Follow the instructions of your employer.
2. Follow the training of your employer.
3. Report any risks to your health and safety to your employer.
4. Report any accidents to your employer.
5. Report any near misses to your employer.

**If there's a problem**

1. Report the problem to your employer.
2. Report the problem to the Health and Safety Executive (HSE).
3. Report the problem to the local authority.
4. Report the problem to the police.
5. Report the problem to the courts.

## H&S AWARENESS

### FIRST AID What you should know!

**BASIC RULES**

1. Do not panic.
2. Do not move the injured person unless it is absolutely necessary.
3. Do not give food or drink to the injured person.
4. Do not give first aid unless you are trained.
5. Do not touch the injured person's wounds.
6. Do not touch the injured person's clothes.
7. Do not touch the injured person's hair.
8. Do not touch the injured person's face.
9. Do not touch the injured person's ears.
10. Do not touch the injured person's nose.
11. Do not touch the injured person's mouth.
12. Do not touch the injured person's throat.
13. Do not touch the injured person's chest.
14. Do not touch the injured person's stomach.
15. Do not touch the injured person's back.
16. Do not touch the injured person's legs.
17. Do not touch the injured person's feet.
18. Do not touch the injured person's hands.
19. Do not touch the injured person's fingers.
20. Do not touch the injured person's toes.

**EMERGENCY SERVICES**

Call 999 for the police, fire and ambulance. Tell them where you are and what has happened. Stay on the line until they tell you to hang up.

The outdoor LED lightbox is vandal resistant with over 100,000 hours illumination.

Create a functional and professional looking Dry Erase Surface on Walls, Doors, Desks and more!

Perfect for walls, doors, cabinet doors, message and menu boards, toy chests, easels, schools and craft projects.

RUST-OLEUM® Dry Erase Paint is a smooth, hard finish that creates a unique white writeable-erasable surface. Once dry, simply use any dry erase markers to draw or write messages and then erase!

Application is easy and it has minimal odour making it safe to use indoors. Ideal for use on interior surfaces such as drywall, masonite, wood, cement, metal.

Customise your dry erase surface into any unique shape or place in the office, home or school.

**DRY ERASE KIT**  
White 797ml  
Covers 4.65m<sup>2</sup> squared  
CONTAINS dry erase activator and paint

ORDER CODE: **DRYERASE-KIT**

For the Best Results  
Apply to a smooth surface and allow to dry 2 days before applying dry erase markings.
